Maple Wikipedia

February 13th, 2019 -

Maple is a computer algebra system (CAS) developed by the University of Waterloo. It is designed to be a powerful tool for mathematical research and education. Maple is available in several editions, including Maple 11, which is the focus of this manual. The manual provides a comprehensive overview of the software's capabilities, including its symbolic manipulation, numerical computation, and visualization features. It is a valuable resource for anyone interested in using Maple for mathematical work.
